The authors regret that Fig. 6B in the published article contained an incorrect image. This was due to their unintended negligence during the extraction and handling of a large volume of experimental data in the process of assembling figures. The authors have replaced the incorrect image for the HFD + Celastrol 0.75 mg/kg/day group with the correct representative image.

The updated Fig. 6B is provided below. The original data of the figures have been provided to the Editorial Office, and the corresponding authors or the Editorial Office can be contacted for original data access.

The authors would like to apologize for any inconvenience caused.
