The authors' group members found an error in Fig. 3B in this article while reviewing the published data. The authors regret that an inadvertent mistake occurred in the process of assembling images. The picture of the T/D CHO group was wrongly placed. This correction does not impact the findings and conclusions of the paper. The authors would like to assure the readers that the corrected image does not alter the validity of the research.

The original data of these figures have been provided to the Editorial Office, and the corresponding author or the co-first authors (juanjih@njmu.edu.cn) can be contacted for original data access.

The authors would like to apologize for any inconvenience caused to the journal and readers.

The corrected Fig. 3B is provided below.
