The authors regret an error in the originally published versions of Figs. 7B and 8H, where images from the same experimental group were inadvertently duplicated during the preparation of the figures. These panels have now been replaced with the correct, distinct images from the original dataset. The correction does not alter the results, interpretation, or conclusions of

the study. The original data supporting this correction have been submitted to the Editorial Office, and the corresponding authors are available to provide access to the original data upon request.

The authors sincerely apologize for any inconvenience caused to the journal and its readers.
