博士后岗位
 [巴西] University of São Paulo

The Institute of Physics of São Carlos (**website: <http://www.ifsc.usp.br>**) will host a School on Spintronics and Quantum Computation, in São Carlos, São Paulo, November 1–5, 2010, aimed at graduate students and young postdoctoral fellows. They will accept about 100 participants (50 from abroad) and cover their travel expenses (restrictions may apply). For details see website: **<http://www.spin2010.ifsc.usp.br/>**. Further inquiries: **Professor J. Carlos Egues** (E-mail: **egues@ifsc.usp.br**), **Institute of Physics of São Carlos, University of São Paulo, São Carlos, Brazil.** (源于 *Science* [2010-09-10])

博士后岗位
 [美国] Microsoft Research, Station Q

Microsoft Research, Station Q has two postdoctoral positions to begin in the summer of 2011. One is for a computational condensed matter physicist. The other is for a theorist with a strong background in quantum Hall physics, topological insulators, and/or quantum information in condensed matter. Application deadline: October 15, 2010. Applications should include a current CV, 3 letters of reference, a 2~3 page statement of research. The applications should send to **seanfr@microsoft.com** with subject heading: postdoc application. (源于 *Physics Today Job* [2010-08-31])

博士后岗位
 [美国] Harvard University

The Harvard Quantum Optics Center (HQOC) Fellowships are newly established to attract and support outstanding postdoctoral researchers in the areas of experimental and theoretical quantum optics as well as theoretical quantum condensed matter theory. Please submit a research plan, a CV, and a record of publications, to **hqoc-pf@physics.harvard.edu**. Applicants may identify an existing group(s) with whom they intend to work. Also please arrange for three confidential letters of recommendation to be sent to the same address. The applicant's name should appear in the subject line of all email submissions. To be sure of having the application considered, all materials should be received by November 1, 2010. (源于 *Physics Today Job* [2010-09-03])

博士后岗位
 [美国] Cornell University

A postdoctoral research position is available immediately at Cornell University. The goals of the project are to detect and image

individual nitroxide electron spin labels affixed to biomolecules and to detect and image small numbers of nuclear spins using magnetic-tipped cantilevers. The candidate should have an interest in magnetic resonance and experience in the design and construction of scanned probe microscope (or related) instrumentation, ideally involving high vacuum and cryogenic temperatures. A PhD in Physics, Chemistry, or a related discipline is required. Interested candidates should send a curriculum vitae in pdf **John Marohn** at **jam99@cornell.edu**. The vitae should include the candidate's publication list, the names of three references, a summary of research skills, and a statement of his/her research interests and plans. (源于 *Physics Today Job* [2010-09-08])

博士后岗位
 [美国] University of Iowa

University of Iowa invites applications for a postdoctoral research position to begin in January 2011. The work will include the study of transport and optical properties of low dimensional systems. The scope of research includes, but is not limited to, non-linear magneto-transport phenomena, spintronic devices, superconductivity and strong correlations in solids. Applicants should submit a CV with the list of publications, research statement and three letters of recommendation to **christine-stevens@uiowa.edu**. (源于 *Physics Today Job* [2010-09-09])

博士后岗位
 [美国] Brigham and Women's Hospital

The Systems-based Consortium for Organ Design and Engineering (**<http://www.SysCODE.org>**) is an NIH-funded Interdisciplinary Research Consortium that is using systems biology to build organ parts from stem cells. A joint, 2-year interdisciplinary postdoctoral fellowship position is available in the laboratories of Richard Maas, MD, PhD and Martha Bulyk, PhD, in the Division of Genetics, Department of Medicine at Brigham and Women's Hospital and Harvard Medical School. Applicants should have a strong background in cell and molecular biology, with experience in stem cell biology and/or ChIP-Seq or other types of genomic analyses. Interested applicants should submit a cover letter, brief description of research interests, and CV to **Dr. Irina Agoulnik, Irina@SysCODE.med.harvard.edu**. (源于 *Science* [2010-09-10])

博士后岗位
 [美国] Louisiana State University

The Louisiana State University invites applications for a senior postdoctoral researcher, postdoctoral researcher or research associate

5 position. The LSU group has major responsibilities for components of the off-axis near detector and is participating in data analysis. Responsibilities: Takes a leading role in T2K data analysis and contributes to the operation and maintenance of the T2K near detector; helps with the design and research & development effort for Long Baseline Neutrino Experiment; performs precision measurements of muon neutrino disappearance and the near detector offers the opportunity for neutrino cross section measurements. Application deadline is September 24, 2010 or until a candidate is selected. Apply online at: www.lsusystemcareers.lsu.edu. **Position #028557**. Required qualifications: PhD or equivalent degree in experimental particle physics or a related discipline; (senior postdoc) three years postgraduate experience; (research associate 5) Master's or equivalent degree and 2 years of related experience. (源于 *Physics Today Job* [2010-09-10])

博士后岗位
[美国] Pacific Northwest National Laboratory

Pacific Northwest National Laboratory in Richland, Washington, is seeking the next generation of scientists and engineers for its 2011 Linus Pauling Distinguished Postdoctoral Fellowship. Pauling Fellows will be actively mentored by internationally recognized scientists and equipped with the resources to carry out a research program of their own design. They will have opportunities to contribute to research efforts that advance scientific frontiers and solve pressing challenges for the nation. Applications open September 1, 2010. See <http://www.pnl.gov/pauling/index.stm> to apply. (源于 *Science* [2010-09-10])

博士后岗位/助理教授岗位
[美国] Weill Cornell Medical College

Weill Cornell Medical College has created a number of new postdoctoral fellow and research assistant positions. Self-motivated scientists with expertise in liposomes, peptides, nanoparticles, radiochemistry, bioconjugation, MR physics, molecular biology and/or animal models are encouraged to apply and join their dynamic research team. Please E-mail curriculum vitae and contact information of three references to **Dr. Ching H. Tung**, E-mail: ctung@tmhs.org. (源于 *Science* [2010-09-10])

助理教授岗位
[美国] University of Colorado, Boulder

The Department of Molecular, Cellular, and Developmental Biology invites applications for a tenure-track assistant professor in the area of molecular, cellular, or developmental biology with an emphasis on basic molecular biological problems. Applicants must have a PhD,

MD, or equivalent in addition to postdoctoral research experience. Review of applications will begin on November 1, 2010 and continue until the position is filled. Application materials are accepted electronically at website: <https://www.jobsatcu.com>, posting number **810875**. Applicants should submit a curriculum vitae and a concise statement of research and teaching interests, and arrange to have three reference letters sent. For questions or concerns on submitting the materials electronically, please contact E-mail: mcdberch@colorado.edu. See website: <http://www.colorado.edu/ArtsSciences/Jobs/> for full job description. (源于 *Science* [2010-09-10])

THE UNIVERSITY OF NORTH CAROLINA
GREENSBORO

助理教授岗位
[美国] University of North Carolina, Greensboro

University of North Carolina-Greensboro (UNCG) invites applications for two tenure-track assistant professor positions in biology. They seek outstanding individuals with research interests in toxicology, including at least one person working at the cellular/molecular level. Successful applicants will be expected to develop a strong, externally funded research program, train undergraduate and graduate students, make significant contributions to PhD program, and teach courses relevant to their specialty. Candidates must hold the PhD by August 1, 2011. Applicants should mail a cover letter, CV, brief statements of research goals and teaching philosophies, and arrange for 3 letters of recommendation to be sent to **Ms. Kathe Martin** (kamarti3@uncg.edu), **Biology Department, UNCG, 312 Eberhart Building, 321 McIver St., Greensboro, NC 27412, USA**. Inquiries should be directed to **Dr. E. P. Lacey** (eplacey@uncg.edu), Search Committee Chair. The evaluation of applications will begin October 1 and continue until filled. (源于 *Science* [2010-09-10])

UNIVERSITY OF
SOUTH CAROLINA
AIKEN

助理教授岗位
[美国] University of South Carolina, Aiken

The Department of Biology and Geology at the University of South Carolina Aiken ([website: http://www.usca.edu/biogeol](http://www.usca.edu/biogeol)) seeks applications for a full-time, tenure-track assistant professor who will use cellular and molecular approaches to study biological processes. PhD required; postdoctoral experience preferred. Start date: August 2011. Primary teaching responsibilities include undergraduate courses in introductory biology, biochemistry and a specialty area. Apply online at website: <https://uscjobs.sc.edu/applicants/Central?quickFind=65196> and submit transcripts and three letters of reference to: **Dr. Bill Pirkle, Department of Biology and Geology, USC Aiken, 471 University Parkway, Aiken SC 29801, USA**. Review of applications will begin November 1, 2010 and continue until position is filled. (源于 *Science* [2010-09-10])

助理教授岗位
[美国] Hendrix College

The Biology Department invites applications for a assistant professor in genetics beginning in the fall of 2011. Geneticists of all specialties are encouraged to apply, especially those with interest in microbial genetics and/or bioinformatics. A doctorate or ABD at the time of appointment is required. Postdoctoral experience is welcomed but not required. Applications should include a letter addressing the candidate's interest in teaching in a demanding but supportive liberal arts environment, curriculum vitae, teaching and research philosophy statements, three letters of recommendation (including the telephone numbers and E-mail addresses of the references), and graduate and undergraduate transcripts. Application materials should be sent to: **Dr. Matthew Moran, Chair, Department of Biology, Hendrix College, 1600 Washington Avenue, Conway, AR 72032, USA.** Review of materials will begin on October 15 and continue until position is filled. (源于 *Science* [2010-09-10])

助理教授岗位
[美国] University of North Carolina,
Chapel Hill

UNC Chapel Hill invites applications for assistant professor positions (other levels also considered). Candidates with cancer-related research and expertise in enzymology, redox biochemistry, chemical biology, computational biology, nanomedicine, signaling network analysis, systems biology, single molecule approaches, cryo-EM, and solid state NMR are especially encouraged to apply, but all areas of expertise in biophysics will be considered. Candidates should have a PhD and/or MD, postdoctoral research experience, and an outstanding publication record. Applications are reviewed until positions are filled. Women and members of underrepresented minority groups are especially encouraged to apply. Please visit website: <http://hr.unc.edu/careers-at-carolina/open-positions> to submit an online application and reference Recruit ID #1000907. Questions on this recruitment can be directed to **Amanda Chang** at E-mail: ahc@med.unc.edu. (源于 *Science* [2010-09-10])

助理教授岗位
[美国] Illinois State University

Illinois State University (website: <http://www.bio.illinoisstate.edu>) invites applications for a assistant professor position in Cellular Neurophysiology. The new faculty will participate in the development of a core neuroscience facility, and undergraduate and graduate sequences in neuroscience as part of a federally funded initiative. The primary teaching responsibility is in graduate neuroscience, with a rotation through undergraduate animal physiology. Postdoctoral experience required. Send cover letter,

curriculum vitae, a brief statement of research goals, and contact information for three references as a single PDF file to: **Paul Garris, Neuroscience Search Committee, in c/o Sally Little** via E-mail: salitt2@ilstu.edu (mailing instructions on website). Review of applications will begin on October, 11, 2010. Intended start date is August 16, 2011. (源于 *Science* [2010-09-10])

助理教授岗位
[美国] University of Louisiana, Monroe

The University of Louisiana at Monroe (ULM) invites applications for a twelve-month tenure-track faculty position of assistant professor. Candidates should have an earned doctorate in physiology or pharmacology and postdoctoral research experience, preferably in the areas of cancer biology, endocrinology, or neuroscience. Candidate screening will begin December 15, 2010, and candidate interviews will start soon afterwards and continue until the position is filled. Qualified individuals should submit their curriculum vitae, list of three references, and a statement of current interests and future goals emphasizing how their interests might complement the strengths of the Department to: **Dr. Paul W. Sylvester, Pharmacology Search Committee, College of Pharmacy, University of Louisiana at Monroe, 700 University Avenue, Monroe, LA 71209-0470, USA.** E-mail: sylvester@ulm.edu. (源于 *Science* [2010-09-10])

助理教授岗位
[美国] University of Minnesota,
Minneapolis

University of Minnesota invites applications for an assistant professor position to begin on or around July 1, 2011. They seek candidates whose expertise complement existing Departmental strengths and who integrate systems level approaches and computational tools for the study of metabolic disease and/or cancer. All candidates must have a PhD and/or MD degree, applicable postdoctoral experience and a strong publication record. They will begin reviewing applications immediately. Please apply online at employment.umn.edu, click on "Search Postings" and enter **168329** into the requisition number field, attach curriculum vitae, a brief statement of research plans. Three letters of recommendation that consider both research and teaching potential should be sent to **the Faculty Search Committee, c/o Ms. Ann Johnson, Department of Biochemistry, Molecular Biology and Biophysics, University of Minnesota, 6-155 Jackson Hall, 321 Church Street S.E., Minneapolis, MN 55455, USA** or as an attachment to swans143@umn.edu. (源于 *Science* [2010-09-10])

助理教授岗位
[美国] Utah State University

Utah State University invites applications for a tenure-track position at the assistant professor level in the area of Chemical Biology

beginning fall 2011. Individuals whose research involves the use of chemical techniques to address important biological problems are strongly encouraged to apply. Applicants must have earned a PhD in Chemistry, Biochemistry, Biology, or a related field; postdoctoral experience is required. The position requires the development of an externally funded research program as well as teaching at the undergraduate and graduate levels. Applicants should submit curriculum vitae, a concise description of future research projects and associated major research infrastructure needs, a statement of teaching philosophy, and the names and E-mail addresses of three references. Apply online at website: <http://jobs.usu.edu> (Req ID 052265). Evaluation of applicants will begin October 30. (源于 *Science* [2010-09-10])

助理教授岗位

[美国] Indiana University, Bloomington

Indiana University invites applications for a tenure-track faculty position at the assistant professor level in organic or bioorganic chemistry beginning August 2011. A PhD in chemistry or a related field is required and postdoctoral experience is preferred. They seek applicants with interests in exploring biomimetic approaches and/or in the development and application of emerging technologies toward the total synthesis of bioactive natural products. Applicants should send a complete curriculum vitae and a summary of future research plans and arrange to have four letters of recommendation forwarded to the Department. Applications completed by November 1, 2010. Applications and recommendation letters should be addressed to: **Professor David R. Williams, Chair, Faculty Search Committee, Department of Chemistry, Indiana University, 800 E. Kirkwood Avenue, Bloomington, IN 47405, USA** or sent as PDF files electronically to E-mail: chemchair@indiana.edu. (源于 *Science* [2010-09-10])

助理教授岗位

[美国] Williams College

Williams College invites applications for a tenure-track position at the rank of assistant professor, to begin July 2011. They are seeking a neurobiologist with research interests in the molecular and cellular aspects of neuronal function. A PhD, postdoctoral experience, and a strong research record are required. Applicants should submit curriculum vitae, brief statements of teaching and research interests, and arrange for three letters of recommendation to be sent by October 22, 2010, to: E-mail: neurosearch@williams.edu, care of **Steven Swoap, Chair, Department of Biology, Williams College, Williamstown, MA 01267, USA**. (源于 *Science* [2010-09-10])

助理教授岗位

[美国] College of William and Mary

The College of William and Mary seeks applications for a tenure-

track position at the assistant professor level in Ecology. Preference will be given to individuals working on terrestrial systems. Postdoctoral research experience is required, and previous experience teaching undergraduate courses will be viewed favorably. Review begins November 1, 2010 and will continue until an appointment is made. Submit online a letter of application, curriculum vitae, statements of research plans and teaching philosophy, and a list of courses taken/taught relevant to the position as a single PDF document to <http://jobs.wm.edu>. Also arrange for three letters of reference to be sent directly to: **Ecology Search Committee, Department of Biology, The College of William and Mary, P.O. Box 8795, Williamsburg, VA 23187-8795, USA**. (源于 *Science* [2010-09-10])

助理教授岗位

[美国] University of South Carolina School of Medicine

The University of South Carolina, School of Medicine invites applications for a faculty position at the assistant professor level. Candidates focus on studying the molecular or cellular mechanisms underlying physiological processes, complex behaviors, or drug action are desirable. Applicants must have a doctoral degree and postdoctoral experience. Qualified applicants may apply by submitting a single electronic file that includes a cover letter summarizing qualifications, curriculum vitae and publication list, a statement of research plans and professional goals, and contact information for four references. The file should be attached to an E-mail message sent to: **Dr. Marlene Wilson** at E-mail: ppn.search@uscmed.sc.edu with "PPN Faculty Search" as the subject before December 15, 2010. For more information about the department please visit website: <http://ppn.med.sc.edu/>. (源于 *Science* [2010-09-10])

助理教授岗位

[美国] Smith College

The Smith College Department of Biological Sciences invites applications for a tenure-track assistant professorship in terrestrial plant physiological ecology beginning July 1, 2011. A PhD is required; teaching and/or postdoctoral experience is preferred. For more information and to apply, visit website: <http://jobs.smith.edu>. Review of applications will begin on November 8, 2010. (源于 *Science* [2010-09-10])

助理教授岗位

[美国] University of New Mexico

University of New Mexico is seeking applications for an assistant professor in the area of evolutionary/comparative vertebrate immunology. Applicants must have a PhD in biology or a related discipline at the time of appointment. Relevant postdoctoral

experience preferred. Applicants must submit a cover letter, curriculum vitae, three representative reprints, and statements of current and future research and teaching interests. All application material must be uploaded and submitted through UNM's electronic application system, UNMjobs, <https://unmjobs.unm.edu>. Applicants must also arrange for at least three letters of reference to be sent directly to biohire@unm.edu. Application materials must be received by close of business day, October 29, 2010. (源于 *Science* [2010-09-10])

助理教授岗位
[美国] East Carolina University

East Carolina University (ECU) invites applications for two tenure-track assistant professor positions (12-month appointments). They seek candidates with a PhD degree in Biochemistry or related field and at least two years of postdoctoral training. Preference will be given to candidates with basic science research expertise in two designated growth areas: (1) Obesity, diabetes, and cardiovascular disease, or (2) Oncogenesis and cancer metabolism. Candidates should submit online: curriculum vitae, a brief statement of research plans, and the contact information for three references at website: <http://www.jobs.ecu.edu>. Review of applications will begin November 1, 2010. Additional information can be found at: website: <http://www.ecu.edu/cs-dhs/biochemistry/>. (源于 *Science* [2010-09-10])

助理教授/副教授岗位
[美国] Texas Tech University Health Sciences Center, El Paso

Texas Tech University Health Sciences Center, El Paso is seeking candidates for positions at assistant or associate professor level. The Center is interested in investigators with research interests in molecular immunology, host-pathogen interactions, vaccine development, and animal models for translational studies. Minimum Qualifications: MD or PhD degree in a related field and at least three years of postdoctoral experience with a strong publication record. Interested candidates must apply online at website: <http://jobs.texastech.edu>, requisition #81327 by submitting curriculum vitae, a short write-up of research interests, and three letters of recommendation. For further information, please electronically mail or contact **Manjunath Swamy, MD**. E-mail: manjunath.swamy@ttuhsc.edu or **Premlata Shankar, MD**. E-mail: premlata.shankar@ttuhsc.edu. Application review will begin immediately. (源于 *Science* [2010-09-10])

助理教授/副教授岗位
[美国] Drexel University

Drexel University invites applications for a tenure-track faculty position at the assistant or associate professor level. They seek

interactive individuals who are working at the interface of chemistry and biology, using chemical and/or structural approaches to tackle important problems in biology and medicine. Individuals whose research complements existing strengths in the department (**website: <http://www.drexel.edu/med/biochemistry>**) are especially encouraged to apply. Successful candidates will have a PhD and/or MD, relevant postdoctoral experience, and a strong record of research accomplishments. To apply, please submit a single PDF containing curriculum vitae, statement of research interests, statement of teaching philosophy, and names of three references to E-mail: lucia.boyer@drexelmed.edu; please include the words "**Chemical Biology Search**" on the subject line. (源于 *Science* [2010-09-10])

助理教授/副教授/教授岗位
[美国] University of Minnesota

University of Minnesota invites applications for assistant, associate or full professor positions. Applicants using molecular, biochemical, cellular, and/or integrative translational approaches to study problems relevant to pharmacological sciences are encouraged to apply. Qualifications include a PhD in biomedical science, or an MD degree, and relevant postdoctoral research experience. Applicants must have a strong record of research accomplishments, as documented by publications in leading peer-reviewed journals. Applicants for associate professor and professor positions must demonstrate distinction in published research, evidence of consistent extramural funding, and a commitment to teaching. For additional information about the department and the Institute for Translational Neuroscience, visit: <http://www.pharmacology.med.umn.edu> and <http://www.itn.umn.edu>. Interested applicants should apply online at <http://employment.umn.edu/applicants/Central?quickFind=88959> and attach a letter of interest, curriculum vitae, brief statement of research interests, and contact information for three references. (源于 *Science* [2010-08-27])

助理教授/副教授/教授岗位
[美国] Thomas Jefferson University

Thomas Jefferson University is recruiting basic science faculty for tenure-track positions at the assistant/associate/full Professor levels. Applicants whose research focus complements and extends the Department's strengths in osteoarthritis and intervertebral disc disease are encouraged. Individuals should have PhD, MD, MD/PhD, or equivalent degrees; postdoctoral experience; a record of publication in high-quality journals; and the ability to secure external funding. Successful candidates will be expected to establish innovative, externally funded research programs. Applicants should submit their curriculum vitae, a research program summary, a statement of future plans, and the names and contact information of three references electronically to **Susan Randolph, Administrator** (susan.randolph@Jefferson.edu). (源于 *Science* [2010-09-10])
