博士后岗位

JOHANNES GUTENBERG
UNIVERSITÄT MAINZ

[德国] University of Mainz

Using genetic models in mice, their group investigates mechanisms underlying various behaviors and the involvement of the endocannabinoid system. They seek a highly motivated and innovative researcher with the initiative and the ability to establish his/her own research project and secure external funding as well as develop a close collaboration within the institute and with other research groups on the university campus. The knowledge of the German language is required. For further information and to apply, please contact **Dr. Beat Lutz** (E-mail: blutz@uni-mainz.de), before 1 December 2010. For application, include CV, list of publication, summary of research achievements and futures projects, and three letters of references. (源于 *Science* [2010-09-24])

博士后岗位

[美国] University of

Kansas Medical Center

A senior-level postdoctoral position is currently available to study molecular mechanisms of streptococcal pathogenesis in the University of Kansas Medical Center. A doctoral degree in Biochemistry (or related field) with strong background in protein chemistry, molecular biology, and bacterial genetics is required. To view a complete position description and apply online only, go to website: <http://jobs.kumc.edu> and search for position **J0010449**. Applications should include a curriculum vitae, list of publications, and contact information for three references. (源于 *Science* [2010-09-17])

博士后岗位

[美国] Baylor College of Medicine

A postdoctoral research position is available in Baylor College of Medicine to study molecular mechanisms of hyperoxic lung and retinal injury in the newborn. They are particularly interested in the mechanistic role of cytochrome P4501A enzymes in the prevention of chronic lung disease in newborn rodents and oxygen-induced retinopathy. They will use transgenic and knockout mouse models, and utilize state-of-the-art molecular techniques. Knowledge and skills in ophthalmology research and angiogenesis would be highly desirable. Applicants should send curriculum vitae to **Dr. Xanthi Couroucli** via E-mail: xanthic@bcm.edu. (源于 *Science* [2010-09-24])

博士后岗位

[美国] Marshall University

Marshall University seek for a postdoctoral fellow to pursue studies

on the effects of diet-mediated epigenetic modifications on cancer. Position available starting November 1, 2010. Mandatory requirements: PhD in molecular biology or related field, a track record of publications, excellent computer skills. Expertise in epigenetics, cell culture, biochemical and standard molecular assays required. Other expectations: presentation of research findings at scientific conferences, preparation of manuscripts, and applications for external postdoctoral funding. To apply, submit a statement of research interests, curriculum vitae, and a brief description of career goals, as well as the names, E-mail addresses, and telephone numbers of at least three references to: **Philippe Georgel, PhD, Byrd Biotechnology Science Center, Room 241-P, 1700 Third Avenue, Huntington, WV 25755 USA**; E-mail: georgel@marshall.edu. Review of applications begins on October 1, 2010. (源于 *Science* [2010-09-24])

THE UNIVERSITY OF
CHICAGO

博士后岗位

[美国] University of Chicago

University of Chicago seeks candidates for a simons postdoctoral fellowship. Applicants can be of any nationality and must have received their PhD in some theoretical area in the year prior to the start of the Fellowship. Applicants can propose work in any field of EFI research; these include astrophysics, particle physics, atomic physics, relativity, and astronomy. Complete applications should be forwarded electronically to E-mail: l-kadanoff@uchicago.edu before December 1, include: (1) an application and research plan, (2) three letters of recommendation from outside the EFI, (3) references to and/or copies of recent papers. A successful candidate will be selected on the basis of promise as a physical/mathematical scientist, ability to profit from and add to EFI, and potential for broad participation in EFI activities. (源于 *Science* [2010-09-24])

助理教授岗位

[加拿大] University of Saskatchewan

University of Saskatchewan, invites applications for a tenure-track faculty position as an assistant professor in the discipline of immunology. Applicants must have a PhD or equivalent, postdoctoral research experience. They are seeking an individual with expertise in any field of immunology, either basic or clinical. A description of research by current faculty members can be found on the department online at website: <http://www.medicine.usask.ca/microbio>. Applicants for the position should provide curriculum vitae, a statement of research interests and specific goals, and the names of three references to: **Dr. Peter Bretscher, Head, Department of Microbiology and Immunology, College of Medicine, University of Saskatchewan, 107 Wiggins Road, Saskatoon, SK S7N 5E5 Canada**. Review of applications will begin on October 15, 2010. (源于 *Science* [2010-09-03])

助理教授岗位
[美国] California State University

California State University, Fullerton invites applicants for up to two positions at the assistant professor level beginning fall 2011. Successful candidates must be committed to excellence in teaching and research. Applicants must have a doctorate in chemistry, postdoctoral or equivalent research experience. Research interests in all areas of physical and/or analytical chemistry, including those in related and cross-disciplinary areas will be considered. Additional information is available from <http://chemistry.fullerton.edu> and <http://diversity.fullerton.edu>. Applicants should send printed copies of a letter explaining how to meet the qualifications outlined above, a curriculum vitae, statements of teaching philosophy, research plans and goals, and arrange to have three signed letters of recommendation sent to: **Chair, Chemistry Search Committee, Department of Chemistry and Biochemistry, California State University, Fullerton, P. O. Box 6866, Fullerton, CA 92834-6866, USA. Review of applications will begin October 15, 2010.** (源于 *Science* [2010-09-03])

助理教授岗位
[美国] University of Tennessee, Knoxville

University of Tennessee, Knoxville seeks to fill a position at the assistant professor level to begin August 1, 2011, in the following area: experimental physical biochemist. Working in the area of nucleic acids or membranes. The successful applicant will be expected to develop a research program, to provide training for researchers, and to contribute to the teaching mission. Required qualifications include a PhD and postdoctoral experience in experimental molecular biophysics of nucleic acids, membranes, nucleic acid-protein or membrane-protein interactions, evidence of significant scientific productivity, and a commitment to an integrated program of teaching and research. Interested candidates should send a cover letter, a resume, a description of research experience and of the proposed research program, and arrange for three letters of reference to be sent to: **Engin Serpersu, Chair, Faculty Search Committee, BCMB Department, M407 WLS, University of Tennessee, Knoxville, TN 37996-0840, USA.** Review of applications will begin on October 1, 2010. (源于 *Science* [2010-09-17])

助理教授岗位
[美国] University of Maryland, College Park

University of Maryland College Park is seeking outstanding candidates to fill two assistant professor positions in each of the

following research areas: 1. functional RNA. 2. host-pathogen interactions. Applicants must have a doctorate degree, relevant postdoctoral experience, an outstanding publication record and a commitment to excellence in teaching. Additional information about the department can be found at website: <http://www.life.umd.edu/CBMG>. Applicants should apply electronically to one of the following at website: <http://jobs.umd.edu> specifying either (1) functional RNA - **Dr. Jonathan Dinman, Search Committee Chair (position #116703)**, or (2) host-pathogen interactions - **Dr. Steven Hutcheson, Search Committee Chair (position #116704)**. Applications should consist of a single PDF file containing (1) a letter of application, (2) curriculum vitae, and (3) summary of research plans and teaching interests. Complete applications should be received by October 31, 2010. (源于 *Science* [2010-09-17])

助理教授岗位
[美国] Stanford University School of Medicine

Stanford University School of Medicine invites applications for two tenure-track positions at the assistant professor level. They are particularly interested in candidates with a strong interdisciplinary record in the broad areas of chemical biology, systems biology, and/or cellular and molecular biology in normal and disease states. Candidates should have a PhD and/or MD degree and postdoctoral research experience. Candidates should send curriculum vitae, a description of future research plans and the names and addresses of three potential referees by November 1, 2010 to: **James Ferrell, Professor and Chair, c/o Jean Kavanagh, FAA, Department of Chemical and Systems Biology, 269 Campus Drive, CCSR Bldg Room 4145A, Stanford University School of Medicine, Stanford CA 94305-5174, USA.** (源于 *Science* [2010-09-17])

助理教授岗位
[美国] University of Wisconsin, Milwaukee

The University of Wisconsin-Milwaukee is seeking applicants for a faculty position as an assistant professor in cognitive neurosciences, see website: <http://neuroscience.uwm.edu>. Applicants must have a PhD in neuroscience or a closely related field, research interests in cognitive neuroscience, and significant postdoctoral research experience. Review of applications will begin on November 15, 2010. To apply online please see website: <http://jobs.uwm.edu/postings/4938> A complete application will consist of a cover letter, vita, a concise statement of research interests, and three letters of reference. Candidates may submit a statement of teaching interests. All application materials may be submitted electronically, except applicants should arrange for three letters of reference to be mailed to: **Neuroscience Search Committee, Department of Psychology,**

UWM, PO Box 413, Milwaukee, WI 53201, USA. (源于 *Science* [2010-09-24])

助理教授岗位
[美国] University of Vermont

University of Vermont is seeking applications for a plant evolutionary developmental biologist. The position is for a tenure-track assistant professor, beginning in the fall of 2011. A PhD and postdoctoral in a relevant area are required. Applicants should apply online at website: <http://www.uvmjobs.com> (#033581). A letter of application, curriculum vitae, a research statement, and a statement of interests and vision regarding teaching should all be attached electronically to the online application. In addition, applicants should enter in the application names and E-mail addresses for three individuals who will provide letters of reference. Applicants are requested to include in their cover letter information about how they will further this goal. Review of applications will begin on October 1, 2010. Questions may be directed to Dr. Jeanne Harris, search chair, at E-mail: jeanne.harris@uvm.edu. (源于 *Science* [2010-09-24])

助理教授岗位
[美国] University of Oklahoma

The University of Oklahoma is seeking a position as an assistant professor who works at the intersection of climate change and biological diversity, beginning 1 July 2011. They seek researchers who use modern tools to understand how changing climate patterns influence plant biodiversity and ecosystem function. Responsibilities will include developing a research program and teaching one course per year. A PhD is required; postdoctoral experience is preferred. The successful applicant must demonstrate research productivity, the potential to attract external funding, and teaching skills. Screening will begin 15 December 2010. Applications should send curriculum vitae, up to five sample reprints, and full contact information for four references to: **Michael A. Patten, Search Committee Chair, Oklahoma Biological Survey, University of Oklahoma, 111 East Chesapeake Street, Norman, Oklahoma 73019, USA.** (源于 *Science* [2010-09-24])

助理教授岗位
[美国] Indiana University

Indiana University Southeast seeks qualified PhD applicants for tenure-track position beginning August 2011. Postdoctoral and teaching experience preferred. Teaching duties include Molecular Biology, Introductory Biology, and related courses. For more information and directions on how to apply visit website: <http://www.ius.edu/hr/>. Deadline October 29, 2010. (源于 *Science* [2010-09-24])

助理教授岗位
[美国] Central Michigan University

Central Michigan University (CMU) seeks a dynamic and creative electrochemist for an assistant professor position. The preferred candidate will develop a research program in electrochemistry with additional emphasis on the synthesis and characterization of inorganic-based materials or nanomaterials. The candidate will participate in the SAM PhD program, and teaching. Additional responsibilities include supervising student research, and department and university service. Postdoctoral research experience in materials for energy applications strongly preferred. Application materials to include vitae, unofficial transcripts, proposed research agenda, description of equipment and startup needs, and statement of teaching philosophy should be submitted at website: <http://www.jobs.cmich.edu>. The applicant should arrange for three professional letters of reference to be sent separately to: **Chair, Search Committee, Department of Chemistry, Central Michigan University, Mount Pleasant, MI 48859-0001. Telephone: 989-774-3981. Fax: 989-774-3883, USA. E-mail: chem@cmich.edu.** Review of materials will begin on October 15, 2010. (源于 *Science* [2010-09-24])

助理教授岗位
[美国] University of Dayton

University of Dayton invites applications for a position in fields related to biochemistry (biochemistry, pharmacology, toxicology, etc.) at the rank of assistant professor starting Fall 2011. Candidates must have a interest in teaching and research, strong communication skills. A PhD in a biochemically related field and at least one year of postdoctoral research experience are required. To apply, submit a curriculum vitae, descriptions of teaching philosophy and research plans, copies of undergraduate and graduate transcripts to <http://jobs.udayton.edu/applicants/Central?quickFind=51402>. Three original letters of recommendation, at least one of which must address teaching potential, should be sent to: **Search Committee, Department of Chemistry, University of Dayton, Dayton, OH 45469-2357, USA.** For additional information, contact **Dr. David Johnson** at dave.johnson@notes.udayton.edu. All application materials must be received by November 1, 2010. (源于 *Science* [2010-09-24])

助理教授岗位
[美国] University of Oklahoma

Applications are invited for the tenure-track positions to begin August 2011, at the assistant professor level. The Department seeks individuals who will contribute to its research, teaching, and service missions, with research interests in: (Search #1) plant molecular biology, functional genomics, proteomics/metabolomics, cell biology,

molecular evolution, or plant-microbial interactions. (Search #2) plant ecology, bioenergy production, or invasive plant ecology. Candidates must have a PhD in Botany or closely related discipline, strong record of research publication, postdoctoral experience. Applicants should indicate Search # and send hard copies of the following to: **Dr. Gordon Uno, Chair, Department of Botany and Microbiology, 770 Van Vleet Oval, University of Oklahoma, Norman, OK 73019, USA.** (inquiries to E-mail: guno@ou.edu): curriculum vitae, representative reprints, statements of research plans and teaching interests and philosophy, as well as full contact information for four references. Review of applications begins November 15, 2010. (源于 *Science* [2010-09-24])

助理教授/副教授岗位
[美国] Ohio State University

Ohio State University invite applications for an assistant or associate professor whose research focuses on environmental microbiology and bioenergy. They seek a molecular microbiologist whose research will be directed towards molecular characterization of physiological processes used by microorganisms to produce biofuels. Applicants must have a PhD or equivalent degree and relevant postdoctoral research experience. The successful candidate will be expected to establish research program and participate in teaching at both the undergraduate and graduate levels. The priority will be given to applications received by October 31, 2010. Application materials, including a letter of intent, curriculum vitae, statement of research and teaching interests, and three letters of recommendation should be sent by E-mail to: micro.grad@osu.edu. (源于 *Science* [2010-09-17])

助理教授/副教授岗位
[美国] University of Texas M. D. Anderson Cancer Center

University of Texas M. D. Anderson Cancer Center invites applications from researchers using approaches ranging from genetics, cell biology and biochemistry to proteomics and system biology for tenure-track assistant and associate professor positions. The department seeks to complement its existing programs in DNA repair, cell cycle control, growth and proliferation, stem cell biology and epigenetics, especially related to DNA damage response and therapy. Applicants must have a PhD and/or MD degree. To apply, please send within a single pdf file: (1) cover letter; (2) curriculum vitae; (3) short research summary; and (4) contact information for three references by December 15, 2010, to: expradonc@mdanderson.org, **Junjie Chen, PhD, Professor and Chair, Experimental Radiation Oncology, University of Texas M. D. Anderson Cancer Center, 1515 Holcombe Blvd., Unit 66, Houston, TX 77030, USA.** (源于 *Science* [2010-09-17])

助理教授/副教授岗位
[美国] Medical College of Wisconsin

Medical College of Wisconsin invites applications for a tenure-track at the assistant or associate professor level. They are seeking individuals to establish internationally leading programs that apply the tools of structural biology to topics of biomedical relevance. Applicants must have a doctoral degree, at least 2 years of postdoctoral training, a strong publication record, and potential to obtain extramural funding. Applications should include a cover letter, curriculum vitae, statement of research interests, copies of key publications, and three reference letters. Send application materials and reference letters electronically in pdf format to: **Structural Biology Search Committee, Department of Biochemistry, Medical College of Wisconsin, 8701 Watertown Plank Road, Milwaukee, WI 53226, USA.** E-mail: akear@mcw.edu. (源于 *Science* [2010-09-24])

助理教授/副教授岗位
[美国] University of Missouri

University of Missouri invites applications for a assistant or associate professor. They are interested in an investigator who primarily conducts human or translational nutrition and metabolism research in the area of obesity and its associated behaviors and/or complications. Position qualifications include a PhD, MD, or a MD-PhD with postdoctoral experience. Applicants should send curriculum vitae, a narrative of research and educational interests, and the names and contact information of three references to: **Catherine Peterson, Ph.D., Chair, Nutrition Search Committee, Department of Nutrition and Exercise Physiology, School of Medicine/HES/CAFNR, 217 Gwynn Hall, University of Missouri-Columbia, Columbia, MO 65211, USA** or, by electronic submission (strongly preferred). To E-mail: umchesnsjobs@missouri.edu. Active review of applications will begin November 1, 2010. (源于 *Science* [2010-09-24])

助理教授/副教授岗位
[美国] University of North Dakota

University of North Dakota seek to fill a position at the assistant or associate level with an individual conducting hypothesis driven research on the genomic basis of prokaryotic or eukaryotic adaptation to biotic and abiotic environmental factors and interactions. The candidate's research should span multiple levels of biological organization and utilize cutting edge experimental approaches. Position will begin 16 August 2011. A PhD is required and postdoctoral experience is desirable. Review of applications will begin October 25. Send curriculum vitae, three representative reprints, statement of teaching and research interests, and names and contact information for three references to: **Dr. Turk Rhen**

(E-mail: turk.rhen@und.edu), 10 Cornell Street Stop 9019, University of North Dakota, Grand Forks, ND 58202-9019, USA. For more information visit website: <http://www.und.edu/dept/biology/jobs.htm>. (源于 *Science* [2010-09-24])

助理教授/副教授岗位
[美国] Washington University School of Medicine

Washington University School of Medicine is recruiting scientists focused on stem cell or regenerative biology. The research interests of the present faculty including *C. elegans*, *D. melanogaster*, *xenopus*, zebrafish, and mouse (<http://DevBio.wustl.edu>). Applications will be accepted from individuals holding the PhD, MD, or MD/PhD degrees and having relevant postdoctoral training. Appointments will be made at the level of assistant or associate professor on the tenure track. Individuals should send a letter of interest, curriculum vitae and summary of research accomplishments, three letters of recommendation and plans (in a single PDF file) by November 1, 2010 to: **Search Committee (c/o Lilianna Solnica-Krezel, Chair), Department of Developmental Biology, Washington University School of Medicine, 660 South Euclid Avenue, Campus Box 8103, St. Louis, MO 63110, USA.** E-mail: devbiosearch@wustl.edu. (源于 *Science* [2010-09-24])

助理教授/副教授岗位
[美国] Memorial Sloan-Kettering Cancer Center

Memorial Sloan-Kettering Cancer Center seeks to fill a tenure-track faculty position in mass spectrometry-based proteomics. The appointment can be at the assistant, associate, or full member level. They are interested in individuals with research in proteomics, who wish to address significant biological problems broadly relevant to cancer and/or develop new methodologies. Applicants should have a PhD or MD degree and postdoctoral research experience. The deadline for applications is November 15, 2010. Interested candidates should visit <http://facultysearch.ski.edu> to access the online faculty application. Inquiries may be sent to Marie Aiello at aiellom@mskcc.org or to **Dr. David Scheinberg, Chairman, Molecular Pharmacology and Chemistry Program at d-scheinberg@ski.mskcc.org.** (源于 *Science* [2010-09-24])

助理教授/副教授/教授岗位
[美国] Western University of Health Sciences

Western University seeks applications for tenure-track positions at the assistant professor/associate professor/professor rank. Applicants must have a PhD in anatomy or equivalent field and at least 2 years of postdoctoral experience. Preference will be given to master educators who have demonstrated excellence in teaching with significant scholarly activity and/or those with a history of extramural funding and a strong potential to obtain further grant

support. Submit a current curriculum vitae and a cover letter describing the teaching experience and philosophy, research activity and goals, and how to meet the qualifications for the position. Please include contact information for at least three references. Send to **James F. May, PhD, Professor and Chair, Department of Anatomy, College of Osteopathic Medicine of the Pacific, Western University of Health Sciences, 309 E. Second Street, Pomona, CA 91766-1854, USA.** E-mail Address: jfmay@westernu.edu. (源于 *Science* [2010-09-17])

助理教授/副教授/教授岗位
[美国] University of Michigan, Ann Arbor

University of Michigan seeks outstanding applicants for tenure-track and tenured bioinformatics and biomedical informatics faculty positions at all levels. Successful candidates will have a PhD and/or MD degree and may have postdoctoral training in genomic; epigenomic, transcriptomic, proteomic, metabolomic or metagenomic, discovery and analysis; computational biology and modeling; biomedical data mining and multi-scale integrative analysis; natural language processing and ontologies applied to biomedicine; or informatics related to healthcare delivery and personalized medicine. Publications and grants and interest in active participation in instructional programs are essential. Applicants should send a letter of interest with curriculum vitae, research plan, and a list of three or more references to: **Search Committee, Center for Computational Medicine and Bioinformatics, Job Code 200. The University of Michigan, 2017 Palmer Commons, 100 Washtenaw Ave, Ann Arbor, MI 48109-2218, USA.** E-mail: ccmbrecruit@umich.edu. Applications will be reviewed through January. (源于 *Science* [2010-09-24])

助理教授/副教授/教授岗位
[美国] University of Chicago

The University of Chicago invites applications for a position of assistant, associate or full professor. The successful applicant is expected to develop a research program on pathogen-host interactions and teaching. Applicants for the position of assistant or associate professor should have a productive research experience with first author publications in virology during postdoctoral training. Applicants for senior positions should have a sustained, vigorous, externally funded research program in virology. Applicants must submit a cover letter, curriculum vitae and a statement of research interests emphasizing career goals on the website, <http://tinyurl.com/2vjyauh>. Applicants to the assistant professor position must arrange to have 3 letters of recommendation submitted to **Melissa Harmeyer (mharmeye@bsd.uchicago.edu)**. The deadline for submission of all application materials is November 15, 2010. (源于 *Science* [2010-09-24])
