助理教授
[美国] Kenyon College

Kenyon College invites applications for a tenure-track position at the assistant professor level. They seek a broadly trained Plant Biologist with expertise in physiology or systematics. This position will complement current faculty strengths in plant molecular genetics and community ecology. Applicants should hold a PhD and demonstrate teaching excellence, the potential to maintain research involvement by undergraduates, and should show promise of establishing a productive research program. To apply and for more information, candidates should visit the Kenyon Biology Department homepage (website: <http://www.kenyon.edu/x35714.xml>) and follow the link for Plant Biologist Search. A complete application will include: (1) Cover letter; (2) statements of teaching and research interest; (3) CV; (4) transcripts (both undergraduate and graduate); and (5) three letters of reference. All applications must be submitted electronically through Kenyon's employment website. (源于 *Science* [2011-09-09])

助理教授
[美国] Cornell University

Cornell University invites applications for two tenure-track positions as assistant professor of Neurobiology. Applicants must have a PhD and investigate the neuronal basis of behavior. They will be expected to establish a vigorous, externally funded, internationally recognized research program and to participate and excel in NBB's undergraduate and graduate teaching programs. Couples are encouraged to apply. Apply via website: <https://academicjobsonline.org/ajol/jobs/845>. Questions about the search can be directed to Professor Joseph Fetcho, Chair, Search Committee, NBB, Seeley G. Mudd Hall, Cornell University, Ithaca, New York 14853-2702, USA (telephone: 607-254-4340). Review of applications begins October 1, 2011. (源于 *Science* [2011-09-09])

助理教授
[美国] Utah State University

Utah State University (USU) invites applications for a tenure-track position at the assistant professor level in the area of Chemical Biology beginning Fall 2012. Individuals whose research involves the use of chemical techniques to address important biological problems are strongly encouraged to apply. The successful candidate will have a research program that complements at least one departmental focus area (i.e., macromolecular structure and function and/or eukaryotic biochemistry), the technical infrastructure within the department, and should also allow the candidate to interact with researchers in the biological sciences from other USU departments and colleges. Applicants must have earned a PhD in Chemistry, Biochemistry, Biology, or a related field; postdoctoral experience is

required. The position requires the development of an externally funded research program as well as teaching at the undergraduate and graduate levels. Applicants should submit CV, a concise description of future research projects, a description of how the research to be pursued complements existing research focus areas and technical infrastructure in the Department, a description of teaching experience and preferred teaching area (s), and the names and E-mail addresses of three references. Apply online at website: <http://jobs.usu.edu> (REQ ID 052819). Evaluation of applicants will begin October 24; posting will remain open until position is filled. For more information, please visit their website: <http://www.usu.edu/science/htm/chemical-biology>. (源于 *Science* [2011-09-09])

助理教授
[美国] University of Pittsburgh

University of Pittsburgh invites applications for tenure-track positions at the level of assistant professor starting September 2012, pending budgetary approval. Individuals whose research is in the area of molecular and cellular neuroscience are especially encouraged to apply, though other areas will be considered as well. The successful candidate will be expected to establish an independent research program and participate in teaching neuroscience to undergraduate and graduate students. Applicants should send electronic copies of CV, a brief statement of research accomplishments and goals, and the names and contact information for three references electronically to E-mail: mrosci1@pitt.edu. Review of applications will continue until the position is filled. (源于 *Science* [2011-09-09])

助理教授
[美国] University of Cincinnati

University of Cincinnati invites applications for a tenure-track position at the assistant professor level, to begin the 2012-13 academic year. A PhD in Chemistry or closely related field is required and postdoctoral experience is strongly preferred. The candidate is expected to develop and maintain a vigorous externally funded research program, aspires to be visible and recognized at the national and international levels, and should be committed to being an enthusiastic and effective teacher at the undergraduate and graduate levels. Research areas of particular interest include experimental physical chemistry and biophysical chemistry. Applications must be submitted online at website: <http://www.jobsatuc.com> and reference the job posting #211UC1588. Applications will be accepted until the position is filled, with review of files beginning November 1, 2011. Applicants must attach the following to their online application: a cover letter, a detailed three-to five-page statement of the proposed research program, a statement of teaching plans, CV, and contact information for three references. In addition, applicants should arrange to have three

letters of recommendation sent directly to the Department of Chemistry, electronically to **E-mail: kim.carey@uc.edu** (preferred) or by paper mail. (源于 *Science* [2011-09-09])

助理教授

[美国] University of North Dakota

University of North Dakota seeks an animal physiologist for a tenure-track position at the assistant professor level. They are particularly interested in an individual whose research examines the genetic/genomic basis of physiological adaptation to environmental stressors. The candidate will contribute to a new undergraduate program in Molecular and Integrative Biology and actively train graduate students. Teaching duties will not exceed two courses per year during the first several years. Courses taught will include a lecture/lab course that emphasizes vertebrate animal physiology and either participation in a team-taught Introductory Biology course or instruction of an additional advanced course. The successful candidate will be expected to establish a productive and extramurally funded research program. A PhD is required, with postdoctoral experience desirable. Position will begin 16 August 2012. Review of applications will begin October 29 and continue until the position is filled. Send CV, three representative reprints, statements of teaching philosophy and research interests, and contact information for three references to: **Dr. Peter Meberg** (E-mail: peter.meberg@e-mail.und.edu), 10 Cornell Street, Stop 9019, University of North Dakota, Grand Forks, ND 58202-9019, USA. For more information visit website: <http://www.und.edu/dept/biology/jobs.htm>. (源于 *Science* [2011-09-09])

助理教授

[美国] University of Illinois, Chicago

University of Illinois at Chicago (UIC), Department of Chemistry invites applications for a tenure-track assistant professor in the general area of organic chemistry. The successful candidate will be expected to carry out a full and vigorous program of innovative research and to contribute to the teaching of graduate and undergraduate students. PhD required. Please submit an online application, including CV, list of publications, summary of past research, plans for future research, and the names and E-mail addresses of three references to **website: <https://jobs.uic.edu> by October 17, 2011.** (源于 *Science* [2011-09-09])

助理教授

[美国] Butler University

Butler University invites applications for a tenure-track assistant professor position in invertebrate biology beginning in August 2012. Successful candidates will be expected to sustain a research program involving undergraduates. Applicants should have a PhD, teaching experience, a strong commitment to undergraduate

education, and an interest in working with diverse populations of students. Butler has an established undergraduate research program supported by institutional funds. Modest startup funds are available for the position. Applicants should submit a cover letter, CV, statement of teaching interests and philosophy, statement of current and planned research, unofficial transcripts, and three letters of recommendation (including one from your current position) to: **Dr. Michael Maloney, Invertebrate Biology Search Committee, Department of Biological Sciences, Butler University, 4600 Sunset Avenue, Indianapolis, IN 46208, USA.** Electronic submissions are welcome with hard copies due upon request. Inquiries and/or submissions may be made electronically to **E-mail: mmaloney@butler.edu.** (源于 *Science* [2011-09-09])

助理教授

[美国] University of Maryland, Baltimore County

University of Maryland, Baltimore County (UMBC) invites applications for a tenure-track faculty position in the area of inorganic chemistry. They are especially interested in applicants with research programs in nanomaterials and/or bioinorganic chemistry, but all areas of inorganic chemistry will be considered. This appointment commences in August 2012. The position, which requires a PhD, is anticipated to be filled at the assistant professor level. The successful candidate is expected to establish a strong research program and teach at both the undergraduate and graduate (PhD/MS) levels. Applicants should submit CV, description of research plans, and statement of teaching philosophy; and arrange for three letters of recommendation to be sent to: **Chair, Inorganic Chemistry Faculty Search Committee, Department of Chemistry and Biochemistry, University of Maryland, Baltimore County, 1000 Hilltop Circle, Baltimore, MD 21250, USA.** Electronic submissions can be made to **E-mail: chemsearch@umbc.edu.** (源于 *Science* [2011-09-09])

助理教授

[美国] University of Iowa

University of Iowa are seeking candidates at the assistant professor level who utilize high throughput experimental and/or bioinformatics approaches to address fundamental questions in genomics, gene expression, and epigenetics as they pertain to neural aging. Areas of particular interest include: genomics, with a focus on transcriptional regulatory networks, and/or epigenetic changes pertaining to neuronal aging; genetic basis of gene expression variation related to aging; the genetic control of cell signaling pathways involved in neuronal aging; and combined experimental-computational approaches to the systems biology of aging. Individuals using established or emerging genetic model systems are particularly encouraged to apply. Applicants must have a PhD in genetics or one of the biological sciences, postdoctoral experience, a recognized

record of accomplishment as reflected in publications in leading journals, and the ability to establish an extramurally funded research program. Applications should be submitted online at **website: <http://jobs.uiowa.edu> under requisition 59860**. Applicants must submit a cover letter, CV, a statement of research objectives, a statement of teaching experience and interests, at most four publications, and the names of three references. Formal screening of applications will begin October 15 and continue until the position is filled. (源于 *Science* [2011-09-09])

助理教授

[美国] Massachusetts Institute of Technology

The MIT Department of Chemistry invites applications for tenure-track appointments beginning July 2012. Appointments will be at the rank of assistant professor, but outstanding senior applicants may be considered. Outstanding applicants with teaching and research interests in all areas of chemistry are encouraged to apply. MIT Chemistry has particular interest in appointments in the areas of Inorganic, Organic, and Physical Chemistry, broadly defined. Applicants working at the interface of these and related areas are also sought. A completed application will include a CV, a one-page summary of research plans, two or more research proposals, a brief statement of teaching interests, and three or more letters of recommendation. Applications are being accepted at Academic Jobs Online at **website: <https://academicjobsonline.org/ajob/jobs/909>**. Search Contact: **Ms. Karen Fosher, personnel administrator, Department of Chemistry, Room 18-392, Massachusetts Institute of Technology, 77 Massachusetts Avenue, Cambridge, MA 02139-4307, USA; E-mail: kfosher@mit.edu**. (源于 *Science* [2011-09-09])

助理教授

[美国] Grand Valley State University

Grand Valley State University is seeking a assistant professor of Cell & Molecular Biology (tenure track) to start Fall 2012. Evaluation of applications begins October 31, 2011. For full position description, see **websites: <http://www.gvsujobs.org> or <http://www.gvsu.edu/cmb>**. (源于 *Science* [2011-09-09])

助理教授

[美国] Harvard University

Harvard University anticipates making a tenure-track appointment at the assistant professor level to begin July 1, 2012. They seek candidates with exceptional promise in the study of high-level cognition, including reasoning, judgment, decision-making, concepts, and consciousness, and interdisciplinary applications such as the cognitive science of economics, politics, religion, or literature. Their interest is less in specific areas than in innovation and excellence. A strong doctoral record is required. It is preferred that

candidates will have completed all requirements for the PhD by the start date of the appointment. Candidates should have demonstrated a promise of excellence in both research and teaching. Teaching duties will include offerings at both undergraduate and graduate levels. Candidates should submit CV, representative reprints, and the contact information for at least three references to **website: <http://academicpositions.harvard.edu/postings/3685>**. Questions regarding this position can be addressed to Carrie Kerstein (**E-mail: kerstein@wjh.harvard.edu; telephone: 617-384-9425**). The closing date for applying is November 1. (源于 *Science* [2011-09-09])

助理教授

[美国] Marquette University

Marquette University exists an opening for an assistant professor in the Department of Biological Sciences. Preference will be given to candidates with research interests in developmental, aging, or stress biology. Applicant must have a PhD degree and productive postdoctoral experience. The successful candidate is to establish an externally funded, vigorous research program. Responsibilities include teaching one undergraduate and one graduate course annually. The applicant is also expected to participate in the research training of their undergraduate, Master's, and PhD students. Applications will be accepted online at **website: <http://www.marquette.edu/hr/careers.shtml>**. Reviews of applicants will commence on December 1, 2011 and continue until the position is filled. (源于 *Science* [2011-09-09])

助理教授

[美国] University of Kansas

University of Kansas is seeking exceptional candidates for a tenure-track position in Organic Chemistry at the assistant professor level expected to begin as early as August 18, 2012. The successful candidate will help to realize the Department's goal of strengthening research expertise in the area of chemical synthesis related to drug discovery/development. A desire to effectively teach at both the undergraduate and graduate levels is expected and a statement of teaching philosophy and interests is required. A PhD or ABD in chemistry or a closely related field is expected by start date of appointment. For a complete announcement and to apply online, go to **website: <https://jobs.ku.edu> and search for position 00002395**. Submit application cover letter, CV, a list of three referees, and a two-page teaching philosophy statement, expertise, and interests online. The following information: a brief summary of two to three research proposals (two pages each) and three letters of recommendation should be sent separately to: **Elaine Knight, Organic Search Committee Coordinator, Department of Chemistry, Malott Hall, 1251 Wescoe Hall Drive, University of Kansas, Lawrence, KS 66045, USA (E-mail: eknight@ku.edu), telephone: (785) 864-5206**. Review of applications will begin November 1, 2011, and will continue as long as needed to identify a qualified

pool. (源于 *Science* [2011-09-09])

助理教授
[美国] Canisius College

Canisius College in Buffalo, New York has two tenure-track openings for assistant professors in the Department of Biology, beginning fall 2012. The candidate should be able to teach introductory cell biology and biochemistry as well as one or more upper-level courses and associated labs in development, evolution and development, or developmental genetics. A research program studying developmental biology using molecular techniques and involving undergraduates is expected. The successful candidate will be expected to seek external funding to support his/her scholarship. Postdoctoral experience preferred. Electronically send letter of application, CV, transcripts, teaching philosophy, plan of proposed research, information for three references by November 15, 2011, to Susan Aronica, PhD at E-mail: hr.recruiter@canisius.edu (put Bio/Evolutionary or Bio/Developmental in the subject, PDF preferred). (源于 *Science* [2011-09-09])

助理教授
[美国] University of Wisconsin, Oshkosh

University of Wisconsin Oshkosh seeks tenure-track assistant professor beginning September 1, 2012. Requirements: PhD in field of biochemistry or related field, ability (or potential) to teach effectively at undergraduate level and establish active research program in biochemistry. Responsibilities: teach undergraduate biochemistry, general chemistry, laboratories in organic chemistry, advise chemistry majors, establish active research program, and pursue extramural funding. Submit letter of application, CV, three current confidential letters of recommendation, transcripts (official or photocopy), research plans, and one-page statement of teaching philosophy to: **Dr. William Wacholtz, co-chair, Department of Chemistry, University of Wisconsin Oshkosh, Oshkosh, WI 54901-8654, USA. Electronic submissions will be accepted at E-mail: chemhire@uwosh.edu. Application deadline: October 14, 2012.** (源于 *Science* [2011-09-09])

助理教授
[美国] Dartmouth College

Dartmouth College seeks applicants for a tenure-track assistant professorship in the areas of comparative and evolutionary genomics, bioinformatics, molecular evolution, population genetics, or quantitative genetics. They seek candidates who are taking empirical, theoretical, and/or statistical approaches to major questions in these areas in any biological system. The successful candidate will be expected to supervise an independent research program that will attract extramural funding, to provide research training for graduate and undergraduate students, and to teach at the

undergraduate and graduate levels. Application materials should include CV, representative publications, statements of research and teaching interests, and at least three letters of reference. Please send materials either electronically (preferred) to **E-mail: evolgenomics@mac.dartmouth.edu** or as hard copies to: **Evolutionary Genomics Search, Department of Biological Sciences, Dartmouth College, Hanover, NH 03755-3676, USA.** Application review will begin on October 19, 2011 and continue until the position is filled. (源于 *Science* [2011-09-09])

助理教授
[美国] University of California, Santa Barbara

UC Santa Barbara (UCSB) invites applications for a faculty position in biochemistry. Applicants at the assistant professor level are encouraged to apply within all areas of biochemistry, including but not limited to experimental systems biology, biomolecular design and physical biochemistry. A PhD is required at the time of appointment. The selected candidates are expected to establish a vigorous well-funded research program and to teach in the graduate and undergraduate levels. Applicants should ensure that CV, a summary of research plans, a statement of teaching philosophy, and three letters of recommendation are sent as PDF attachments to the Biochemistry Search Committee at **E-mail: tops@chem.ucsb.edu**. Completed applications received by November 1, 2011 will be given preference. However, the search will continue until the position has been filled. The appointment can become effective as early as July 1, 2012. The department is especially interested in candidates who can contribute to the diversity and excellence of the academic community through research, teaching, and service. (源于 *Science* [2011-09-09])

UNIVERSITY of CALIFORNIA • IRVINE

助理教授岗位
[美国] University of California, Irvine

University of California, Irvine invites applications from outstanding individuals for a tenure-track position at the assistant professor level in the field of inorganic chemistry. Candidates must have a PhD in chemistry or a related field; postdoctoral experience is desirable. The position requires both the establishment of a vigorous research program and a strong commitment to teaching at undergraduate and graduate levels. Applications must be submitted electronically via the Internet at **website: <https://recruit.ap.uci.edu>**. Applicants should upload a cover letter, curriculum vitae (including publication list), and a concise statement of research plans. At least three letters of recommendation will be required. Applications and supporting materials should be received by October 15, 2011 for full consideration. (源于 *Science* [2011-09-02])
