博士后
[美国] New York University

New York University opens a postdoctoral position. They are in search of highly motivated, creative individuals with a strong interest in epithelial biology. They are presently focusing their efforts on bacterial/host urothelial interactions, membrane trafficking and urothelial stem cells using a combination of cell culture, transgenic mouse and a wide range of biochemical, molecular and cell biological techniques. Applicants should have a PhD in cell biology/biochemistry with at least one publication in membrane or stem cell biology. The candidate should have an excellent command of oral and written English. Applicants should send a single PDF file containing their CV along with a summary of their previous research experience, accomplishments, and experimental expertise. They should also arrange for 3 letters of reference to be sent directly to Dr. Henry Sun via E-mail at: sunt01@nyumc.org. (源于 *Science* [2014-08-21])

博士后
[美国] The University of Tennessee

The University of Tennessee opens a postdoctoral position within a pulmonary research group to study mechanisms of lung injury and epithelial repair. Projects include studying chemokine receptors, focal adhesion kinase, cell migration, and protein-protein interactions in the context of acute lung injury and mechanobiology. Experience with cell culture, molecular biology, animal models of lung injury, mechanical ventilation, fluorescence microscopy, and pulmonary physiology are desirable. Required qualifications include a PhD or MD in a related field and good communication and writing skills. Send curriculum vitae and names and addresses of 3 references to **Dr. Christopher M. Waters, PhD, Professor and Vice Chair, Department of Physiology, University of Tennessee Health Science Center, 894 Union Avenue, Memphis, TN 38163, USA.** E-mail: cwaters2@uthsc.edu. (源于 *Science* [2014-08-21])

博士后
[美国] University of California, Irvine

University of California, Irvine anticipates opening for full time postdoctoral scholars. Applications are being sought from recent PhD graduates. Interdisciplinary skills and approaches are required. Training should be in molecular biology, biochemistry, or a related field. This is an ongoing recruitment. Positions are dependent on extramural funding. Initial appointments are for one

year and renewal will be dependent on availability of support. Review of applications will begin July 1, 2014 and will continue until positions are filled. Positions may begin as early as August 1, 2014. Additional information regarding available position can be obtained by contacting: **Margaret Walton, Department of Biological Chemistry, D240 Medical Sciences I, University of California, Irvine, CA 92697-1700, USA.** Please specify that you are applying for a Postdoctoral Scholar position. (源于 *Science* [2014-08-22])

博士后
[美国] Cornell University

Hospital for Special Surgery and Weill Cornell opens a postdoctoral position to recent PhD graduates (<2 yrs of postdoctoral experience only) to study transcriptional regulation by steroid hormone receptors and coregulators in macrophage biology, inflammation, metabolism and innate immunity (http://www.hss.edu/research-staff_rogatsky-inez.asp). The position requires previous research experience in biochemistry/molecular biology and a strong publication record. Background in transcriptional regulation and nuclear receptor signaling is desirable. Please submit a CV with a description of research experience and interests and arrange for three letters of recommendation to be sent (E-mail: hssposition@gmail.com; **Dr. Inez Rogatsky, Research Building, Rm. 425, Hospital for Special Surgery and Dept. of Microbiology & Immunology; Weill Medical College of Cornell University; 535 E70th st, New York, NY 10021, USA.**) (源于 *Science* [2014-08-25])

博士后
[美国] Columbia University

Columbia University Medical Center invites applicants for a position as postdoctoral research Scientist. They are looking for a senior postdoc who is interested in the field of tissue damage, particularly in the kidney. The applicant must have advanced molecular skills including the ability to create new mouse lines, mouse husbandry, RNAseq and CHIP technology, in situ and cellular work experience. The applicant must commit to the job for three years (as a minimum). For immediate consideration, please send curriculum vitae and names of three references to: **Jonathan Barasch, MD, PhD, Columbia University, Department of Medicine, New York, NY 10032, USA;** E-mail: jmb4@cumc.columbia.edu. (源于 *Science* [2014-08-25])

博士后
[德国] Deutsches Elektronen-Synchrotron

Deutsches Elektronen-Synchrotron opens a postdoctoral position.

They are looking for highly motivated individuals with a background in experimental physics, physical chemistry, or nanoscience. For the Postdoc position an excellent track record in molecular physics, optical or laser physics, or related fields is expected. The position is limited to 2 years with the option to extend for 3 years. Salary and benefits are commensurate with those of public service organizations in Germany. Classification is based upon qualifications and assigned duties. DESY operates flexible work schemes. Handicapped persons will be given preference to other equally qualified applicants. Please send your application quoting the reference code, also by E-mail, to: **Deutsches Elektronen-Synchrotron DESY, Human Resources Department, Code: EP075/2014, Notkestraße 85, 22607 Hamburg, Germany.** Phone: +49 40 8998-3392. E-mail: recruitment@desy.de. (源于 *Science* [2014-08-26])

博士后
[美国] University of Michigan

University of Michigan seeks candidates working on sustainability issues at the interface of the social sciences/humanities and natural/physical/engineering sciences. They are accepting applications from qualified candidates who received their PhD or comparable professional or artistic degree within four years of the fellowship start date (i.e., between September 1, 2011 and September 1, 2015). In rare circumstances, this time frame can be relaxed, but you must consult with the program (dow-postdoc@umich.edu) before applying if your degree was awarded before September 1, 2011. Successful candidates will come from a wide range of disciplines/backgrounds. Application materials: Career goal statement; Curriculum vitae; Research proposal; Names and contact information of two recommenders. All application materials, except the two letters of recommendation, must be submitted by the candidate online. See the attached RFP for more information about the program and application process. A link to the full application form will be sent via email once the Intent to Apply form is completed and submitted. Questions about the program should be sent via E-mail to: dow-postdoc@umich.edu. (源于 *Science* [2014-08-26])

助理教授
[美国] The University of Texas at Austin

University of Texas at Austin (molecularbiosci.utexas.edu) invites applications for a tenure-track faculty position at the assistant professor level. They seek an outstanding investigator who will build an internationally recognized research program and will teach effectively at the undergraduate and graduate levels. The successful candidate will be eligible for membership in the multidisciplinary Institute for Cellular and Molecular Biology, have access to excellent core facilities (including next-gen DNA sequencing, mass spectrometry, flow cytometry, confocal and

super-resolution microscopy, and mouse genetic engineering), and will have the opportunity to participate in the Cellular and Molecular Biology, Biochemistry, and Microbiology graduate programs. Applicants should send a single PDF file containing a cover letter, curriculum vitae, statement of research plans and teaching interests, and contact information for three references to MBSfacultysearch@austin.utexas.edu. Applications received by November 1, 2014, will receive full consideration. (源于 *Science* [2014-08-22])

Bates 助理教授
[美国] Bates College

The Bates College Department of Biology invites applications for a tenure-track assistant professor of Plant Ecology, beginning 1 August 2015. PhD required by start date, postdoctoral experience preferred. They welcome applications from all individuals with the ability to contribute to the college's continuing commitment to social and cultural diversity, inclusiveness, and the transformative power of their differences. The search committee expects applicants to identify their strengths and experiences in these areas and describe how their research, teaching, and/or outreach can further this goal. Review of applications begins 10 October 2014, and will continue until the position is filled. Applicants should submit, in PDF format, a cover letter, curriculum vitae, unofficial graduate transcripts, and statements on teaching and research, including plans for involving undergraduates in a research program. Please also arrange for the submission of at least two (preferably three) letters of recommendation, in PDF format. Employment is contingent upon successful completion of a background check. Inquiries concerning the college's policies, compliance with applicable laws, statutes, and regulations (such as Title VII, Title IX, and ADA/Section 504), and complaints may be directed to the **Assistant Vice President of Human Resources, Mary Main**, at 207-786-8388 or mmain@bates.edu. (源于 *Science* [2014-08-22])

助理教授
[美国] Rhodes College

Rhodes College seeks qualified applicants for a new tenure-track faculty position in Molecular Biology to begin in August of 2015. Candidates must have a PhD, research experience in molecular biology, and a commitment to undergraduate teaching and research. The teaching responsibility of five courses per year (labs are counted as a full course) will normally include Molecular Biology or Genetics, plus participation in the introductory biology course covering cellular and molecular biology. The successful applicant will participate in the interdisciplinary Biochemistry and Molecular Biology program, and they encourage applications from individuals whose interests go beyond traditional disciplinary boundaries. Completed applications will include a cover letter, a

statement of teaching philosophy, a research plan, a curriculum vitae, copies of graduate and undergraduate transcripts, and three letters of recommendation. Please address in your cover letter your interest in teaching at a liberal arts college and how your experiences with teaching, scholarship, and/or service might contribute to a college community that includes a commitment to diversity as one of its core values. The online application system will solicit letters of recommendation electronically from the candidate's recommenders, once their contact information has been entered by the candidate. Please apply online at jobs.rhodes.edu. (源于 *Science* [2014-08-22])

助理教授
[美国] DePauw University

DePauw University, Greencastle, IN, is seeking qualified applicants for two tenure-track positions to begin August 2015. (1) Assistant Professor of Biology (Ecology), apply.interfolio.com/25293: they invite applications for a tenure-track position in ecology. Teaching may include biostatistics, introductory and advanced ecology with laboratory and general education. The successful candidate will be expected to develop a research program involving undergraduates; preference may be given to candidates with field research programs adaptable to local systems and whose expertise is in community, ecosystem and/or aquatic ecology. (2) Assistant Professor of Biology (Cellular and Molecular), apply.interfolio.com/25578: they invite applications for a tenure-track position in cellular and molecular biology. Rank and salary will be commensurate with experience. Teaching may include introductory and advanced cell and molecular biology with laboratory and general education. The successful candidate will be expected to develop a research program involving undergraduates. Submit through Interfolio a letter of application, cv, three recommendation letters, transcripts, statements of teaching philosophy and research interests, and evidence of teaching effectiveness. (源于 *Science* [2014-08-22])

助理教授
[美国] Oakland University

Oakland University invites applications for a tenure-track position in Ecology at the level of assistant professor. Candidates working at all levels of organization, using plants, animals or microbes will be considered. Applicants working in the sub-disciplines of behavior, landscapes, communities, populations, evolution and conservation are particularly encouraged to apply. A PhD and post-doctoral experience are required, as is a strong research track record evidenced by publications in peer-reviewed journals. Lab space and a competitive start-up package will be provided. The successful candidate is expected to develop a vigorous, extramurally funded research program, teach effectively at the undergraduate and graduate levels, mentor undergraduate and

graduate research students, and participate in service activities. Review of applications will begin on September 29, 2014, and continue until the position is filled. Applications should include: cover letter, curriculum vitae, statement of research interests and plans, statement of teaching philosophy and names and contact information for three references. Inquiries can be made to the Search Committee Chair, **Dr. Scott Tiegs: tiegs@oakland.edu**. (源于 *Science* [2014-08-25])

助理教授/副教授
[美国] University of Alabama
at Birmingham

University of Alabama at Birmingham seeks an outstanding individual with expertise in acute lung injury, pulmonary hypertension or related areas to join the faculty. The individual must possess significant expertise in these areas as demonstrated by first or last authorship in peer-reviewed journals and must have an active NIH grant. The individual must be willing to collaborate with other faculty in these areas and interested in basic, translational and clinical research. Please send your CV, personal statement and a list of references to **Sadis Matalon, PhD, Vice Chair for Research, Anesthesiology at sadis@uab.edu**. (源于 *Science* [2014-08-21])

教授
[荷兰] TU Delft

TU Delft is offering a position for a full professor to work on Cell Systems Engineering. They are looking for an ambitious and inspiring leader who will integrate multiple research disciplines such as multi-scale modelling, systems biology and metabolomics for understanding microbial performance in industrial processes. She/he will stimulate and initiate scientific interaction with the other groups in the department, and contribute to consolidation and expansion of the department's international network via joint research projects with industry, public-private partnerships and education. The full Professor will teach and (re-)design courses in their BSc and MSc programmes and at the post-graduate level, for example in bioprocess technology, design and optimisation of industrial bioprocesses, and in metabolic engineering. Supervision of MSc and PhD students will be an important responsibility, as well as supervision of students in the 2-year Professional Doctorate in Engineering (PDEng) programme in Bioprocess Engineering. For more information about this position, please contact **Prof. Isabel Arends, phone: +31 (0)15-2784423**, E-mail: I.W.C.E.Arends@tudelft.nl. To apply, please email a detailed CV, vision of education and research, and three references along with a letter of application by 1 October 2014 to **Maita Latijnhouwers, M. J.M.Latijnhouwers@tudelft.nl**. When applying for this position, please refer to vacancy number TNWBT14-024. (源于 *Science* [2014-08-22])
